

## CAREER GOAL STATEMENT

Aspiring Web3 & Software Developer with a passion for backend development and blockchain technology. Currently building my skills in smart contracts, web development, and API design, aiming to merge traditional backend expertise with emerging Web3 innovations.

## SKILLS

- ✓ UI/UX Design (Figma)
- Tools & Platforms
- ✓ Git/GitHub, Postman, Linux Terminal
- ✓ Desktop Publishing (MS Word, PowerPoint)

## HOBBIES & INTERESTS

- Surfing the internet & researching new tech
- Solving algorithmic challenges & coding puzzles
- Watching documentaries & historical content

## COURSES

2023

### Software Engineering

Aptech computer Education

2024

- Figma UI/UX Design
- HTML, CSS and JavaScript Fundamentals
- Python Basics & Backend Development

## EXPERIENCE

**Gained hands-on experience in UI/UX design, frontend development, and backend programming while working on real-world projects.**

- Designed wireframes & prototypes using Figma.
- Built web interfaces with HTML, CSS, and JavaScript.
- Developed backend systems using Python, Django, and MySQL.
- Created full-stack projects like a Food Ordering Website, City Guide App, and Expense Tracker API.
- Currently learning Web3 development, focusing on smart contracts and blockchain integration.

## NOTABLE PROJECTS

### E-Commerce Website for Eyewear (Html, CSS, JavaScript & MySQL)

Built an online store with user authentication, shopping cart & payment integration

### City Guide App (Flutter & Firebase)

Developed a mobile app with Google Maps API & Firebase for location-based services

### Food Ordering Website (Django & MySQL)

Created a food ordering system with user authentication & order management

### Expense Tracker API (Django REST Framework)

Designed a secure API for tracking expenses with JWT authentication & CRUD operations
